## David Adams

General Manager

David Adams brings over fourteen years of experience in the O&P and orthopedic sectors, including leadership roles in manufacturing, regulatory compliance, customer support and business development. Most recently he served as Vice President for Trulife based in the company's production facility located outside of Seattle. In addition to his position at Trulife, he has served as Executive Vice President for CAMP Healthcare, and Vice President, Business Development of Foot Orthotics for Bauerfeind, Germany. While at Seattle Systems, a predecessor company to Trulife, Mr. Adams was involved in all aspects of management as a corporate officer and steering committee member. In this capacity, Adams served as a key leader in transitioning the company through three major acquisitions, including its sale to Hanger Orthopedic Group.

Mr. Adams also has over twelve years of experience working in the Naval Nuclear Power Program. Through his service on nuclear powered submarines, he developed a systematic approach to operations that he is applying towards Orthocare Innovations' product development and production requirements. The engineering background he brings to Orthocare will also support product development. Adams currently serves as a board member of the Orthotics and Prosthetics Education and Research Foundation.
